

NEELEY DENTAL

Your Smile, Our Mission

If my insurance downgrades or changes a procedure for a different material, I agree to pay the difference or elect to not have the procedure done and let the doctor know before the procedure starts.

le: If you want a composite (tooth colored) filling but your insurance will only pay for an amalgam (silver) filling, you either choose composite and pay the difference or choose the amalgam filling.

Also, in the event my insurance does not cover a procedure I am undergoing, I consent to let Neeley Dental LLC charge me for the uncovered procedure and agree to pay the amount in full or I elect to not have the procedure completed.
